ABSTRACT

Linda Novitasari. *Development of the Scout SKU Book based on Local Culture to Improve Understanding of Scouting Materials in SD/MI. Thesis. Pacitan: STKIP PGRI Pacitan, 2022.*

This study aimed to know: (1) the procedure for developing of the Scout Cub SKU Book based on Local Culture; (2) the level of appropriateness for developing of the Cub Scout SKU Book based on Local Culture; (3) the level of understanding of students after using the Cub Scout SKU Book based on Local Culture development media.

The researcher used research and development with the Borg & Gall development model that has been modified by Sugiyono, namely: (1) potential and problems; (2) data collection; (3) product design; (4) design validation; (5) design revision; (6) product trial; (7) product revision; (8) trial use; (9) product revision. The product was tested twice on a small group and a large group. The appropriateness of the product is based on the results of the assessment of material experts, media experts, religious material experts and student responses. The level of understanding is based on the test results of low grade students (cub scout groups) as test subjects. Data collection techniques used observation, response questionnaires, tests and documentation. Data analysis used product validity level technique and test data analysis.

The results of the research showed: (1) the assessment of media experts obtained an average of 4.71 in the "Very Valid" category, the assessment of material experts obtained an average of 4.80 in the "Very Valid" category, the assessment of religious material experts obtained an average of 4.77 in the category "Very Valid", the assessment of small group trial subjects obtained an average of 4.29 with the "Very Valid" category and the results of the large group trial subject assessment obtained an average of 4.57 with the "Very Valid" category; (2) the media increase students' understanding with the results of the pre-test understanding percentage of 27.8% and the post-test understanding percentage of 100%.
